

**The Fort Zumwalt School District
Parents as Teachers program is currently
enrolling families with children ages
prenatal-5 years old!**

Parents as Teachers is a voluntary and **free** program that provides practical, effective help for all Missouri families with children ages birth to five years old.

The Parents as Teachers program offers the following:

- **Personal Home Visits:** Certified Parent Educators help you understand each stage of your child's development and offer practical ways to encourage learning
- **Group Connections:** The PAT program schedules events for parents to gather together, gain new insight, share experiences, and learn about their child's development. Some examples of these events are parent informational nights, parent/child gross motor activities, storybook walks in the park, and a multi-school district Polar Party!
- **Screenings:** We offer a yearly free screening that provides information in the areas of problem solving, communication, personal-social development, motor, hearing, and vision.
- **Referral Network:** The PAT program helps link families to community resources and special services, if needed.
